# Reading Comprehension Through Unseen Passage

[22 Marks]

1. Read the following text.

(12 Marks)

- 1. Given the standing of some of its institutions of higher learning, the IITs and IIMs, India is a potential knowledge power. Realising the potential, however, is not going to be easy. The impressive strides made by Sarva Shiksha Abhiyan (SSA) notwithstanding, universal access to quality school education- a minimum necessary condition for any progress towards making India a knowledge society', as the 2006 report of the National Knowledge Commission (NKC) puts it-remains a distant goal.
- 2. There is as yet no legislation at the national level to affirm the right to education, a fundamental right under the Constitution. The number of school buildings for elementary and secondary education falls far short of requirements and so does the number of qualified teachers. The pressure on government budgets, which forces governments to hire teachers on contract paying a pittance of a salary, is playing havoc with quality. While the incursion of the private sector in the field is providing some competition, mechanisms to enforce the required standards are lacking.
- 3. Not that there are no national standards or standards-enforcing agencies. We have the National Council for Educational Research and Training (NCERT) to bring out textbooks in various subjects for school education. The Central Board of Secondary Education (CBSE) conducts examinations for schools affiliated to it across the country. The states too have their school boards to conduct exams and enforce minimum standards. How even the standards vary widely. In their anxiety to show spectacular performance, some states are overly lenient-in marking answer papers.
- 4. Questions arise even over the standards applied by CBSE. Going by the number of students securing 90% or more in their higher secondary exam, it would appear India is on the brink of a knowledge revolution. The numbers are so large that the cut-off point for admission to top colleges is now above 90%. However, admissions to IITs and medical colleges are not based only on CBSE or State Board Exam results. Leading undergraduate colleges offering non-professional degree courses hold their own admission tests. Obviously, Higher Secondary School results are not taken to be a reliable index of the quality of a student's learning capability or potential.
- **5.** The numbers seem to be growing every year. The standards applied by Higher Secondary wide it is am cool and what they have to face on entering institutions of higher learning.
- **6.** In an attempt to remedy the situation, NCERT had recently commissioned experts to rewrite textbooks on economics. Though not entirely free from blemishes, these new texts should go some way in helping beginners get acquainted with the basic concepts in the subject and their applications.
- **7.** Not surprisingly, their introduction is facing roadblocks. Teachers do not like to be compelled to look at textbooks they are not familiar with. Those who revel in seeing students score 90% are reluctant of ushering in something that may stop the rush of such scores.

- (ix) State the feelings of the writer with reference to the topic concerned in the passage. (1)
- 2. Read the following text. \(\) (10)
- **1.** Social media addiction is an emerging health problem in India, especially among the young population. Nowadays, irrespective of their socioeconomic background, adolescents have greater exposure to electronic gadgets like smartphones at a much younger age. The introduction of internet and the launch of low-cost data packages in 2016/2017 has put India on the global map for large-scale consumption of mobile data with active social media users going up to 197 million (14% of the population).
- **2.** For adolescents, phone-based communication is an important way to maintain their social relationships. The use of social media websites then is one of the most common activities that has become an integral part of their day-to-day lives.

Hence, making them more prone to social media overuse or addiction which may have a deleterious effect on the physical and psychological health. Hence, it became important to study the pattern of social media usage and associated physical and mental health issues among Pre-University (PU) college students as they are the vulnerable group.

- **3.** A cross-sectional study was conducted in Government and Private PU colleges situated in Urban Bengaluru city, Karnataka, India, during July to December
- 2016. The objectives of the study were to assess and compare the prevalence of social media addiction in different organisations, to assess the health problems related to social media usage and to assess the various factors associated with social media addiction.
- **4.** A total of 1870 study participants were recruited from both Government and Private PU colleges. Each participant was administered a pretest and semi-structured questionnaire as the study tool. They were asked to answer about the non-academic usage of social media. Scale comprised 10 questions, each given a score ranging from 0 to 4 (0-never, 1-seldom, 2-occasionally, 3-often, and
- 4-always), with a minimum score of 0 and a maximum score of 40. Participants were classified based on the scores as: Normal (<12), mild addiction (13-20), moderate addiction (21-32) and severe addiction (233).

Distribution of Study Subjects According to Grading of Social Media Addiction.

Grading	Government	Private	Total
Mild	182 (80.8)	191 (66.3)	373 (72.7)
Moderate	39 (17.3)	93 (32.2)	132 (25.7)
Severe	4 (1.9)	4 (1.5)	8 (1.6)
Total	225 (100)	288 (100)	513 (100)
